

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating ever since nineteen seventy four, becoming the biggest independent spreader manufacturer in the world. They are a dedicated maker of spreaders for numerous various applications such as the swap bodies, trailers, and handling of containers.

Engineering is done in-house by way of utilizing all of the most up-to-date CAD systems and FEM tools. The ELME business currently has over 125 personnel. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-around the world.

The ELME product collection offers spreaders for a variety of trailer and container handling operations. Several of their inventory consist of: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes as well as a huge array of additional parts.

ELME production and manufacturing is done in a highly automated purpose built factory. In the year 2008, they made more than one thousand one hundred fifty spreaders by way of utilizing top quality parts so as to guarantee dependability and high standards while offering reasonable prices. Major characteristics of ELME consist of design simplicity, market feedback and ground-breaking modular spreader concept.
