

Rockwell Part

Rockwell Parts - AxleTech International is a leading supplier in the globe of specialty vehicle drive-train systems and components along with off highway vehicles. The business prides itself on being its customers' chosen supplier. AxleTech strives to exceed and meet their clients' expectations for quality, service, technology and delivery. They believe in working in an atmosphere that supports the highest integrity with empowered collaboration, along with a unrelenting pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively utilizing principals of ecological stewardship and safety in how they do business. The business has put various programs in place so as to articulate these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with any questions or comments, as they are glad to share and promote this policy with a greater understanding of their efforts. They are extremely dedicated to preserving and improving the natural world. AxleTech has an EHS program which not just protects the natural environment but which even actively protects their employees and neighbors also.

AxleTech specializes in the designing and manufacture of planetary axles meant for both military and commercial applications, that may include anything from airport ground support to construction equipment. They take great pride in being an innovative drive-train solutions provider too. AxleTech specifically designs axles to meet certain application demands. They have over 1000 different axle specs within their current offering. With more than 100+ years of history and skill, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in numerous commercial and military applications. They offer complete axle assemblies for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have extra details that could be seen in the "ISAS" product collection.
