

Meritor Parts

Meritor Parts - Meritor is a premier international supplier that is proudly built on a 100 year tradition of quality and service. They specialize in various integrated systems, modules and parts to original machine makers and the aftermarket for the transportation and industrial sectors.

Meritor prides itself in the company's distinctive energy and thinks that this energy contributes to their competitive advantage in the global operations. The business values their clients and would like to ensure their success while anticipating their diverse requirements. Meritor starts with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor encourages collaboration and innovation amongst a team of experienced experts.

Meritor strongly believes in only employing future focused people. These top-caliber individuals could rapidly adapt to changing surroundings and freely exhibit the level of commitment and performance required to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor provides all their workers different possibilities for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that consist of axles, drivelines, braking and suspension systems designed for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of all their worldwide engineering workers.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities which are located around the globe in 19 nations and in 5 different continents.

They have their supplier network which is particularly located in order to support the development of the business. Each and every regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in every part of the business. The DFSS or also known as Design for Six Sigma ensures product reliability in each and every region. The team is also included transactional Green Belts who make use of Six Sigma tools to business methods and apply lean techniques.
